Objective

I was a AutoCAD drafter working for a leading Australian Joinery company in Adelaide. As my study background was in Structural Engineering, I wish to come back to an engineering role with my current AutoCAD shop drawing experience in building industry and project document managements. Glad to start from a drafter or a junior designer role. I am ready here in Sydney for any immediate start. Many thanks!

Highlights

- Sound theory based understanding in Civil and Structural Engineering discipline
- Strong interest in structural design and detailing
- Self-motivated quick learner

Education

The University of Adelaide 07/2014-07/2016

- *Master of Engineering (Civil and Structural)*
- Thesis: Research of Fibre Reinforced UHPC
- GPA: 5.2/7.0

Shenzhen University 09/2009-06/2013

- *Bachelor of Civil Engineering*
- Undergraduate design: Five-storey RC Frame Structure Design
- GPA: 2.91/4.0

Working Experience

- Intern structural engineer in the Architecture Design Institute of Huadu District, China
01/2017-04/2017
- Internship at **IJF Australia Ltd Pty** (SA 5013) 03/2018 - 05/2018
- Project Administrator at **IJF Australia Ltd Pty** (SA 5013) 05/2018 - 07/2020

Skills

- Proficient in structural calculations and design with Microsoft Office Suite.
- Proficient in structural design drafting using AutoCAD.
- Experiences of both concrete and steel course designs complied with Australian codes.
- NAATI Accredited Professional Translator from the English language into the Chinese language.
- Fluent in English, Mandarin, Cantonese.
- Australian driver's licence, Full rights to work in Australia
